

I would like to make comment on Low Power FM (LPFM) service. I **DO NOT** feel this new service should take priority over current translator service for the following reasons.

- 1). I enjoy listening to KLOVE at 91.1 on my dial during the day. I would be very disappointed if this service was not available in the future.
- 2). I feel KLOVE brings a value to the community that would not be replaced by LPFM stations.
- 3). Many people are impacted in a positive way on a daily basis from the broadcast service of KLOVE.
- 4). I have lived in several communities over the past 15 years and once I found or discovered KLOVE, have been enjoying their broadcast ever since. I love to be able to pick up their translators almost everywhere I travel! I don't believe this new LPFM would be able to replace this service.
- 5). Being able to receive KLOVE at 91.1 has brought joy to my life and I would be very disappointed to lose that!
